

Drug Evidence Submission Requirements for Liquids and Large Cases

All Liquids (includes wet solid material)

- Liquids with a volume of 1000 mL (1 Liter) or less will be submitted in leak-proof containers. These bottles should be double bagged in clear plastic evidence bags.
- Liquids with a volume greater than 1000 mL (1 Liter) will be submitted in sealed hazmat type buckets (as pictured below) of appropriate size. The inner contents of the bucket can be plastic bags or other containers at the discretion of the submitting agency for integrity of evidence purposes.
- Buckets must be labeled with unique case information and sealed. If more than one bucket is submitted from the same case, it will be labeled to indicate the unique number as well as the total number in the submission (example: Bucket 1 of 10 or 1/10).

Examples of proper liquid sample containers:

Examples of proper liquid packaging:

-Less than 1000mL (1 Liter)

-Greater than 1000mL (1 Liter)

Solid Samples over 1 kilogram (powder, crystals, tablets)

- All solid samples over 1 kilogram will be submitted in boxes or plastic containers.

- No box larger than 15x15x15 will be submitted without prior approval from the LM/CSM.
- Boxes or plastic containers will not weigh more than 25 pounds (approx 10-12 kg)
- Boxes cannot be reused.
- Boxes and plastic containers from the same case will be labeled to indicate the unique number as well as the total number in the submission (example: Box 1 of 10 or 1/10). Boxes and plastic containers must also contain unique identifying case information.
- Boxes will have ALL seams and corners taped with packing tape and evidence tape or with reinforced fiber tape and evidence tape.
- Plastic containers will have all tops taped with packing tape and evidence tape or with reinforced fiber tape and evidence tape.
- For powder and crystal cases, there must be an inner liner/barrier to avoid leaks. The inner liner can be plastic bags or paper bags at the discretion of the submitting agency.

Examples of proper solid sample submission:

Vendor and Part Number information -Drug Submissions

The GBI does not endorse any particular vendor or any specific part number. These are examples for demonstrative purposes. Anything similar in nature that meets the criteria for drug submissions is sufficient.

Solids weighing more than 1 Kilogram:
